

1st with Internet-Delivered Video
for Classrooms.

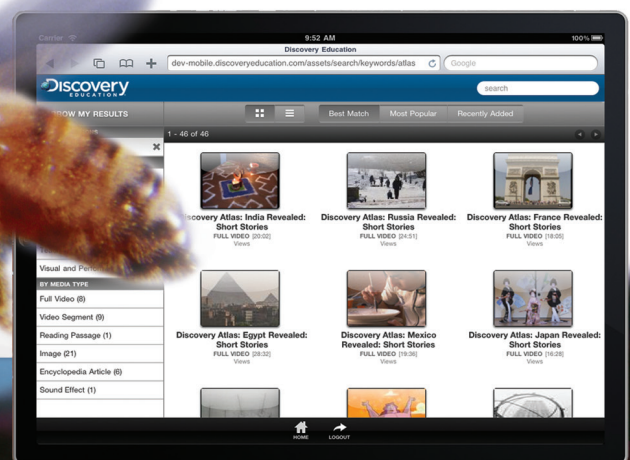

1st to Inspire Student Learning
through iPad-Delivered
Educational Experiences.

Engage Students with Individualized Content

Discovery Education's ground-breaking iPad web app is focused on student exploration of safe and appropriate educational content. Whether assigned by their teacher, or spurred by their own imagination, students can explore thousands of video clips covering all core, K-12 curriculum areas. Students can find content using Discovery Education's targeted keyword search, or explore content via the visual subject browse.

- Inspire students through thousands of learning objects optimized for the iPad device
- Access content under a tree, in the library, at home, or at school via wireless internet or 3G wireless
- Aid classroom management with a single username and password for all Discovery Education web sites
